KEEPING KIDS SAFE FROM ABUSE

Kristi House Prevention Education Best Practice Trainings 2022 Calendar

JANUARY – JUNE 2023

Continuing Education (CE) credits are now being offered!
See reverse for qualifying courses so far.

What Every Adult Needs to Know

Designed for parents and adults who would like to be better equipped to prevent child sexual abuse, this class covers signs and symptoms, provides an understanding of the dynamics of sexual abuse—particularly the manipulative behavior of perpetrators — and offers techniques to support open communication with children to prevent victimization.

Children with Problematic Sexual Behavior

Both boys and girls might display sexual behavior problems without sexual abuse victimization being the underlying cause. Learn how to recognize sexual behavior problems versus normal sexual development and how to respond.

Commercial Sexual Exploitation of Children (CSEC 101)

This workshop provides a basic overview of commercial sexual exploitation of children (CSEC), the extent of the problem, and the impact this type of trauma has on children. Also learn tips for identifying and engaging victims of child sex trafficking, and discussion of services needed for healing and reintegration into mainstream society. This is a Florida DCF-approved training for those working with trafficking victims.

Children and Traumatic Stress

Social workers, teachers, counselors, and others who work with children are invited to participate in this informative program to gain an understanding of traumatic events and their impact on a child's behavior, demeanor, and long-term well-being.

Attendees are provided electronic proof of performance upon completion of a pre- and post-survey.

How Mass Violence Impacts Youth

Learn what experts recommend on how to best respond and how to support youth during the aftermath of mass violence, specifically gun violence. This class will provide tools to recognize and respond to mass violence situations, learn about prevention, and understand how community resilience plays a major role in healing trauma.

Human Trafficking and Exploitation of Men and Boys

This workshop, offered in partnership with Giant Slayer Communications, helps participants develop strategies to engage with male victims of human trafficking. Attendees will gain a broader knowledge of cultural-specific vulnerabilities that place boys and young men at greater risk for sex and labor trafficking, and ways to improve identification and treatment.

Stewards of Children®

from Darkness to Light

Learn how to prevent, recognize, and react responsibly to child sexual abuse. This nationally recognized, best practice program uses videos, workbook activities and discussion to engage and educate about child sexual abuse and how to keep children safe. Adults learn that child sexual abuse knows no socioeconomic, cultural, or racial boundaries.

Healthy and Unhealthy Relationships

from One Love Foundation

Learn how to empower young people with the tools and resources they need to see the signs of healthy and unhealthy relationships; empower youth to identify and avoid abuse and to practice healthy love. Multiple courses available including: Amor Del Bueno, The 10 Signs, Escalation and more.
