

Kristi House Children's Advocacy Center is pleased to invite Miami-Dade child-serving professionals to apply to participate in the next C-START Learning Collaborative:

TRAUMA PRACTICES INITIATIVE

Community-Based Learning Collaborative focused on Trauma-Focused Cognitive Behavioral Therapy (TF-CBT)

Taught by National Master Training Team from the Medical University of South Carolina and Dee Norton CAC.

WHO CAN PARTICIPATE:

Open to teams of mental health clinicians, case managers, advocates and supervisors who serve children who have experienced trauma from sexual abuse, physical abuse, trafficking or some other adverse experience.

C-START utilizes a community-based learning collaborative approach to engage multiple stakeholders to ensure that children receive appropriate screening, referral to services, and quality treatment.

COST: There is no cost to participate in the training and practice aside from \$35 for the online *TFCBT-web* course to be completed before the first training. Interested professionals must apply, complete pre-work and make a commitment to work and report on cases using TF-CBT.

KRISTI HOUSE'S C-START

PROJECT was launched in 2012 to build community-wide capacity to deliver evidence-based, trauma-informed, culturally competent treatment interventions for child victims of sexual abuse and other types of trauma.

C-START is made possible by funding to Kristi House from U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration (SAMHSA) as a National Child Traumatic Stress Initiative Category III Community Treatment and Services Center. Grant #1H79SM087906-01.
